

PODIUM PAYMENTS

Texts get opened. You get paid.

THEY GET A TEXT MESSAGE.
THEY PAY. AND IT'S DONE.

Whether you want to close more deals, save time or collect on past due bills, Podium Payments is a better way to get paid.

With Payments from Podium, just send the customer a text, and they choose their payment method. They no longer have to use an archaic system like snail mail or play phone tag to make a payment.

COLLECT NO-CONTACT PAYMENTS VIA TEXT.

Podium Payments is the best way to keep money coming in, even when people aren't going out.

GET MONEY. SAVE MONEY.

Cut back on the wasted time and resources associated with gathering payment - no postage, no paper, no phone tag - no time at all.

GET PAID FASTER.

By requesting payment in an existing Podium text conversation, you'll see much higher response rates than with traditional methods.

PRICING

Industry-standard rates. There are no monthly costs - just pay a standard processing fee per transaction, with one flat rate for every type of card.

CUSTOMIZATION

Customizable invoices. Brand your invoices with your company name and logo. Specify payment methods for certain types of customers or purchases (only allow e-check, disallow credit card, etc.).

REPORTING

Data at a glance. Easily see who has completed payments, and who needs follow-up. Quickly export to your accounting software with integration-friendly data formats.

OTHER FEATURES

Refunds: Quickly process refunds straight from your Podium dashboard.

Multiple Bank Accounts: Connect multiple bank accounts to make sure the correct departments are getting paid.

Line Items: Easily itemize your invoices to help customers see exactly what they are paying for.

Payment Methods: Give customers the flexibility to pay with credit, debit, HSA, bank transfers, Google Pay or Apple Pay.

Advanced Fraud Protection: Our fraud model helps protect you from taking payments from stolen cards.

Secure Payments: Podium's PCI-compliant software protects you and your customers.
